

bulthaup b3 interior system

"Innovation is not about following the zeitgeist. Innovation is about defying it."

Marc O. Eckert
CEO, Bulthaup

It's more than a way of organizing your kitchen: it's a composition of your choosing.

With bulthaup b3 interior elements, you can showcase your creativity on a whole new stage. They break away from the conventionally rigid structures within drawers and pull-outs, and grant you the utmost freedom in your kitchen design.

The fantastically simple idea behind the interior elements allows you to re-organize the space within the drawers with ease and speed, time and again. There are countless possibilities for storing, tidying and positioning the items – you become the conductor of your own kitchen composition. Your ideas and personal cooking style are all that counts.

Functionality fuses with intuition, and creates a completely new way of working. The result is a system that is adaptable, sensuous, and truly distinct. This way, you can arrange your cutlery, kitchen tools, utensils and accessories exactly as you wish.

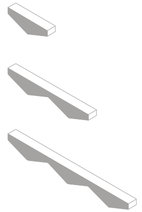

How do you interpret the music? In a fresh way, each and every time.

The bulthaup b3 system of interior elements is based on distinctive functional prisms. The horizontal nature of the prisms in the drawers and pull-outs creates an entirely new and fascinating look, greater transparency of organization, and exceptional ergonomics, with easy access for both right- and left-handed users.

With the functional prisms, you can position your accessories and utensils exactly as you desire and be certain that they will not slide out of place. Even if the pull-outs are opened or closed abruptly, the contents remain where they are. You arrange your own space – using themed zones, for example, or according to what you feel looks best. We offer a variety of materials: you can choose from an oak or walnut veneer, polished stainless steel, or a soft-feel, anthracite-colored synthetic material.

Within the drawers, single, double and triple dividers enable you to redefine the space in the functional prisms over and over again. They come in glass and stainless steel. And the single dividers are available with a metal core, surrounded by a high-quality, anthracite-colored soft-feel material.

"I'll admit to having wept three times in my life: when my first opera was a failure, when I first heard Paganini play the violin, and when I saw a truffled turkey go overboard at a boating picnic."

Gioacchino Rossini

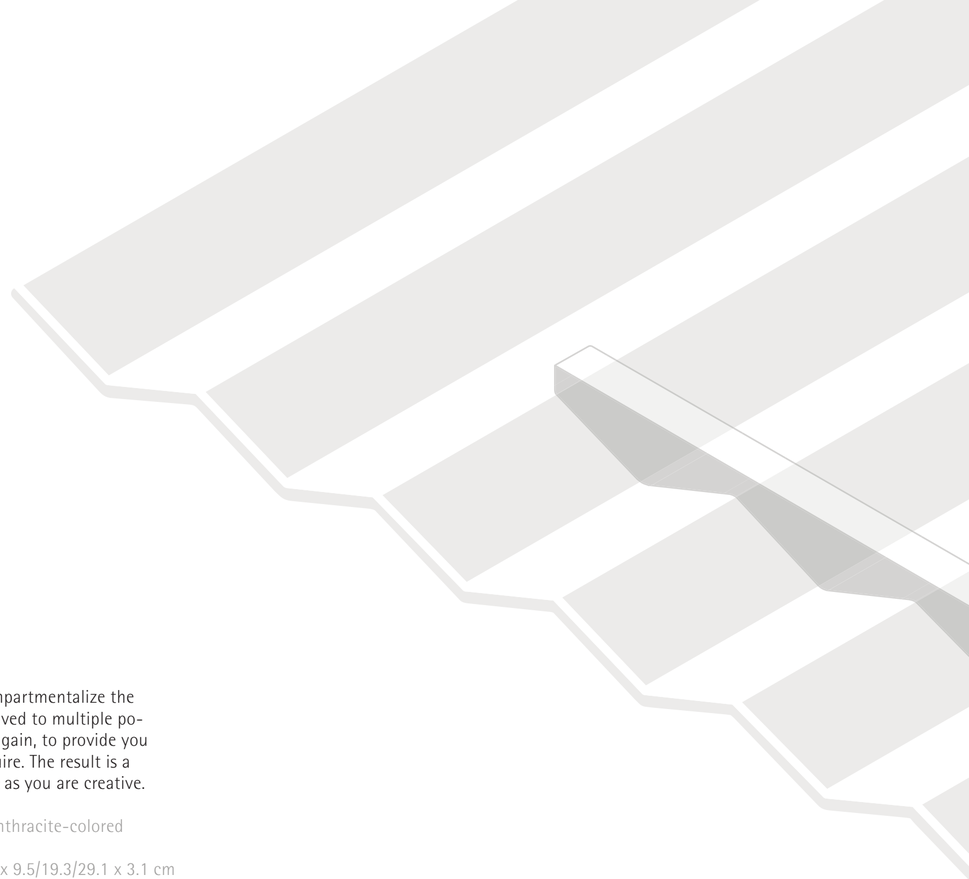

In your kitchen, you conduct the music. Here are your instruments.

Accessories

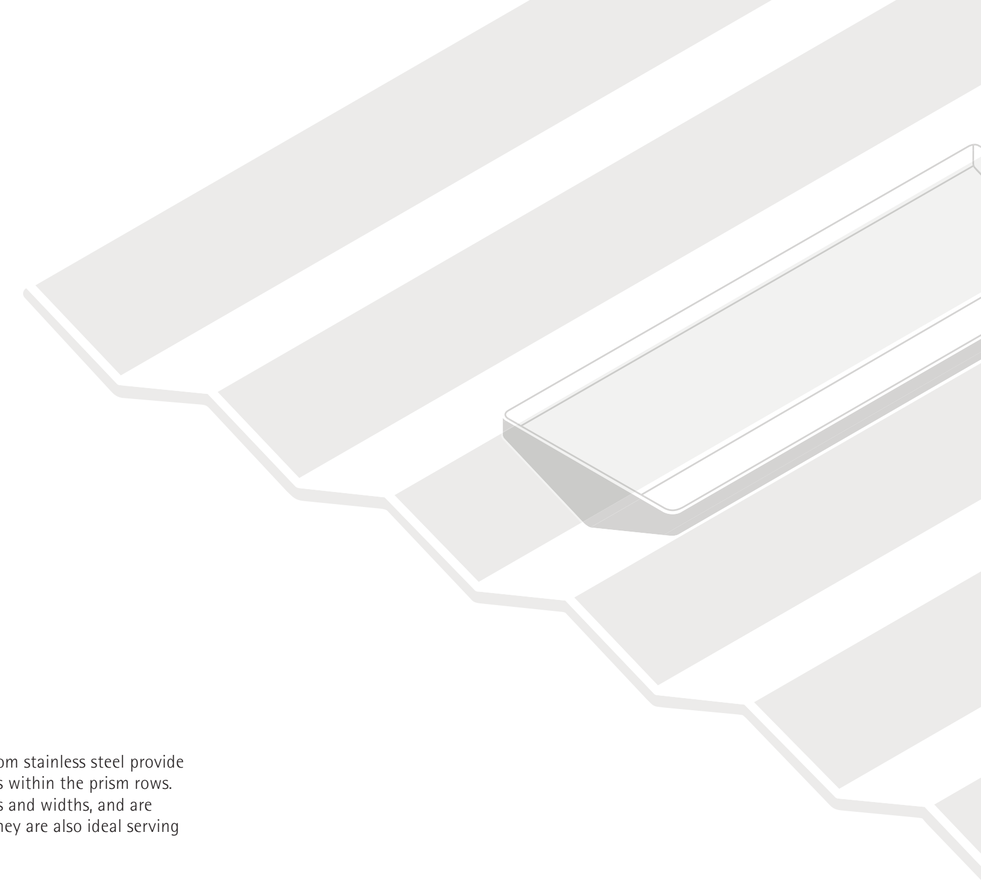

Sliding **dividers** in three sizes compartmentalize the functional prisms. They can be moved to multiple positions, and rearranged time and again, to provide you with precisely the spaces you require. The result is a pull-out interior that is as flexible as you are creative.

Material: stainless steel | glass | anthracite-colored synthetic material
Size (W x D x H), stainless steel: 2 x 9.5/19.3/29.1 x 3.1 cm
Size (W x D x H), glass: 2.2 x 9.5/19.3/29.1 x 3.1 cm
Size (W x D x H), synthetic material: 2.2 x 9.5 x 3.1 cm

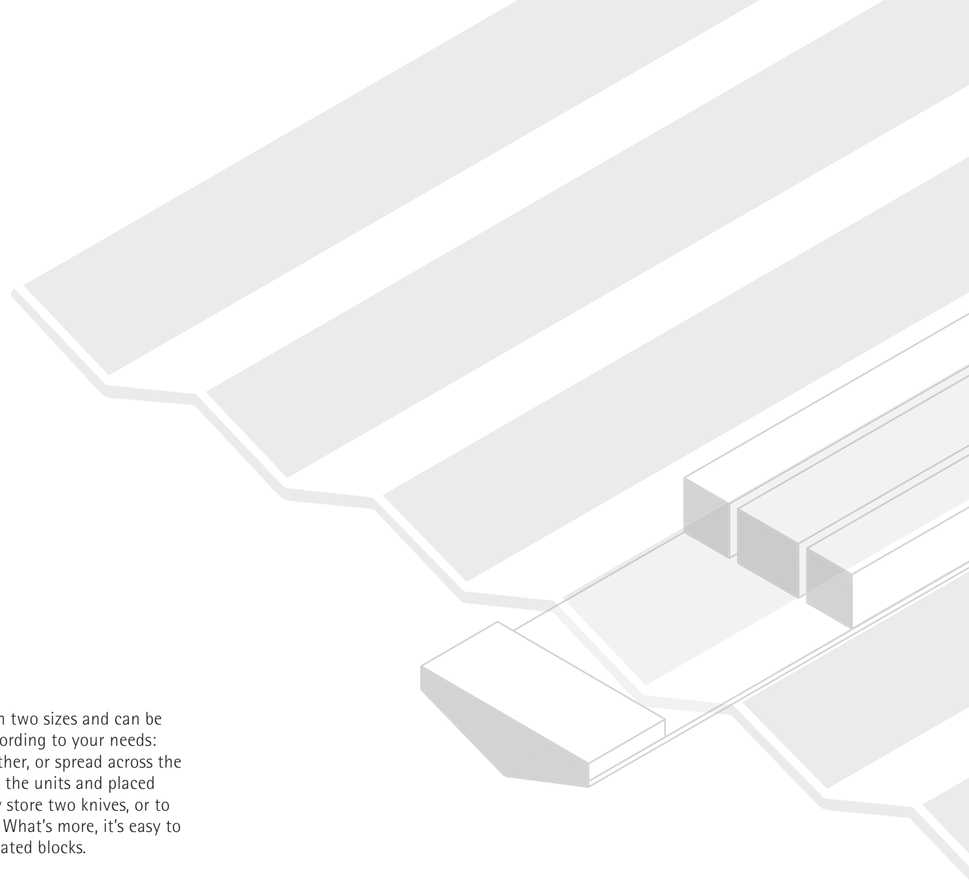

Elegant **utensil inserts** made from stainless steel provide storage space and act as dividers within the prism rows. They are available in two heights and widths, and are suitable for a variety of items. They are also ideal serving pieces.

Material: stainless steel
Size (W x D x H): 18.5/26 x 9.5 x 3.1/4.9 cm

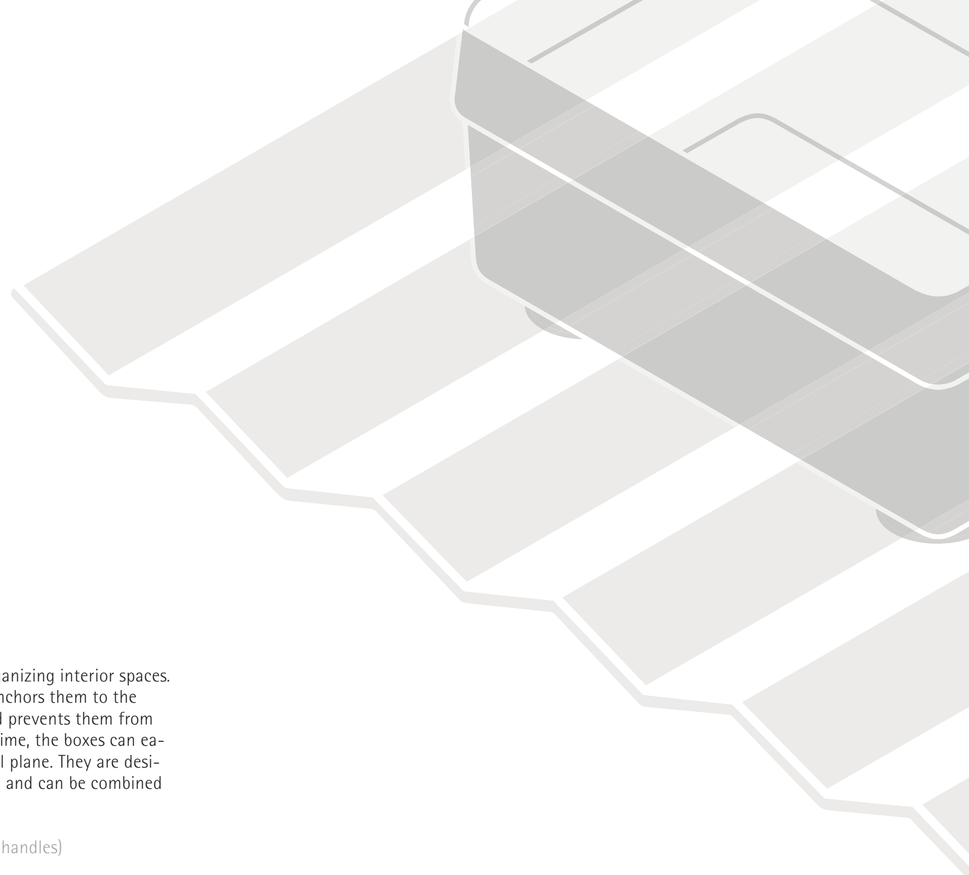

The modular **knife blocks** come in two sizes and can be positioned within the drawers according to your needs: next to each other, behind each other, or spread across the prisms. They can be removed from the units and placed on countertops or tables, to safely store two knives, or to form part of an attractive display. What's more, it's easy to remove the knives from the integrated blocks.

Material: oak | walnut
Size (W x D x H): 18.5/26 x 9.5 x 3.1/4.9 cm

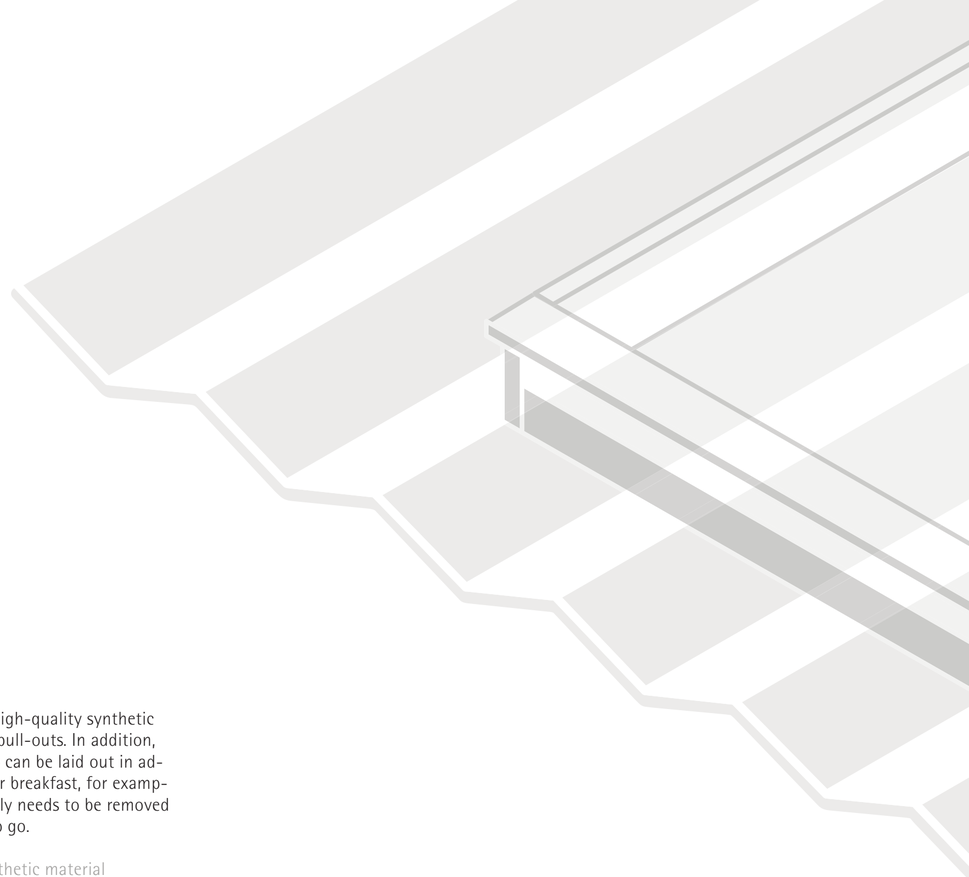

Modular **boxes** are perfect for organizing interior spaces. They feature a special base that anchors them to the pull-out on the vertical plane, and prevents them from sliding out of place. At the same time, the boxes can easily be moved along the horizontal plane. They are designed to integrate with the prisms, and can be combined for a seamless look.

Material: oak | walnut (aluminum handles)
White synthetic material
Size (W x D x H): 18.2/28 x 28 x 14.8 cm
47.7 x 18.2 x 14.8 cm

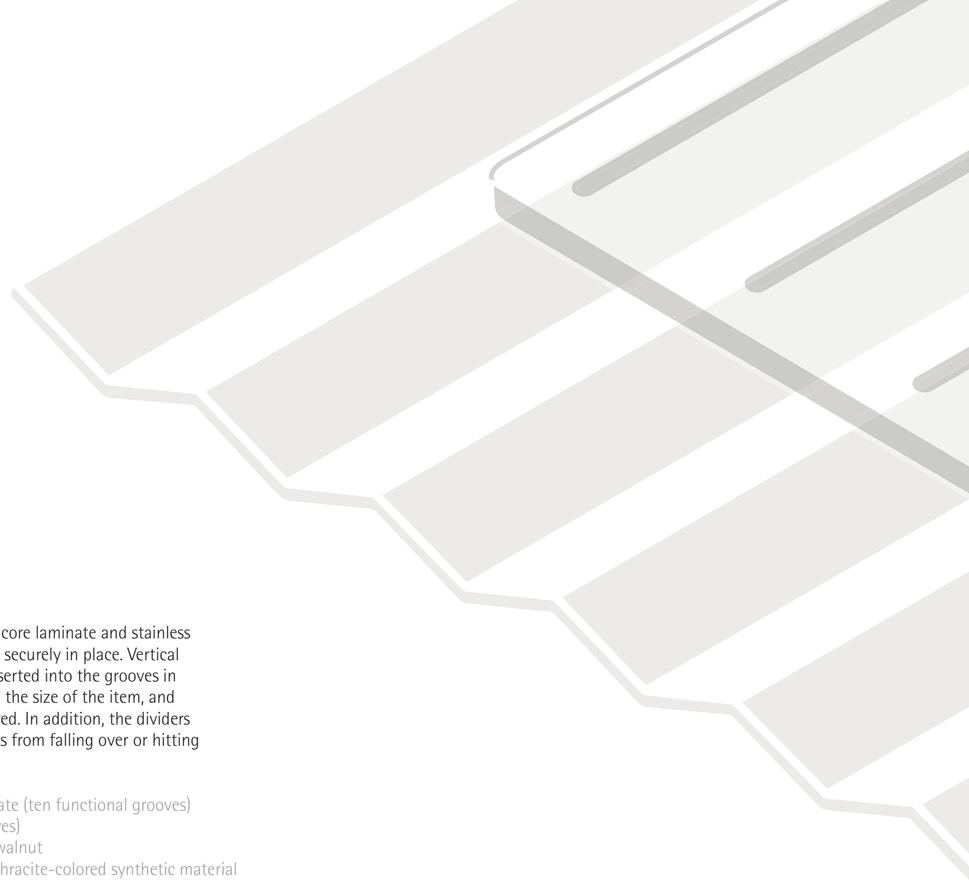

Stylish **trays** in oak, walnut or a high-quality synthetic material are ideal for structuring pull-outs. In addition, they can be used for serving. They can be laid out in advance with everything required for breakfast, for example, or afternoon tea. The tray simply needs to be removed from the pull-out and it's ready to go.

Material: oak | walnut | white synthetic material
Size (W x D x H): oak | walnut: 47.4 x 37.7 x 7.6 cm
Size (W x D x H): synthetic material: 47.4 x 37.7 x 4.8 cm

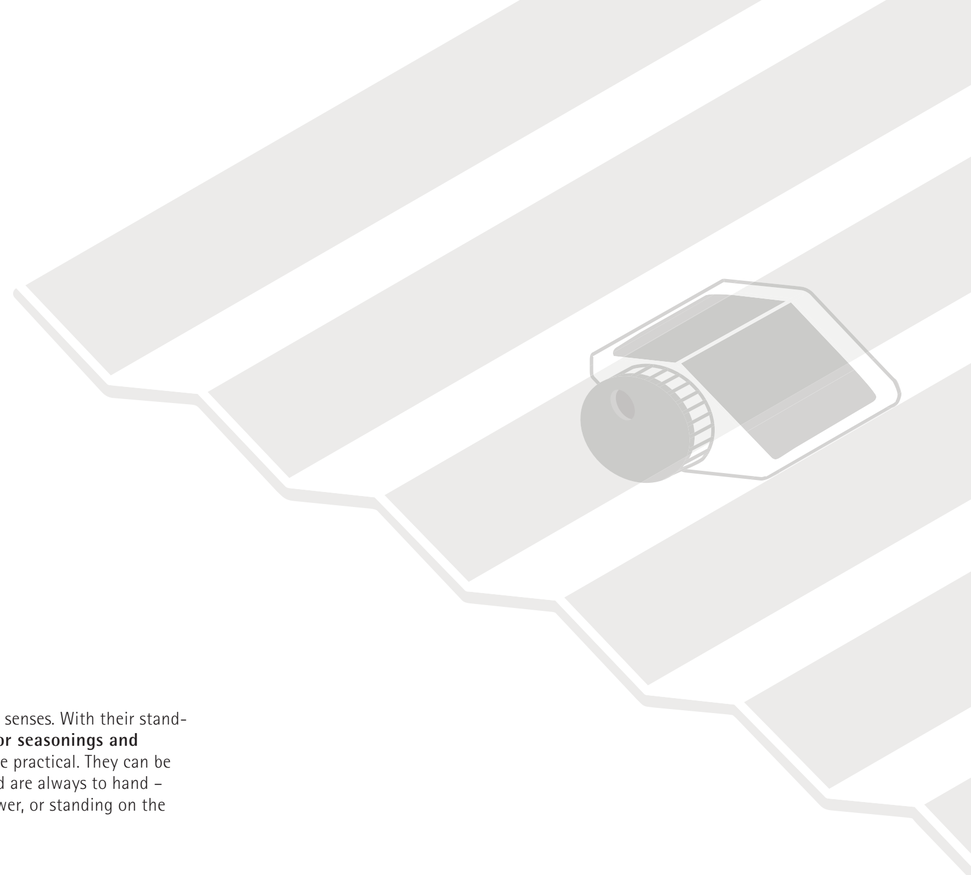

Practical **functional liners** in solid-core laminate and stainless steel ensure plates and pans remain securely in place. Vertical wooden dividers and rods can be inserted into the grooves in a variety of positions, depending on the size of the item, and rearranged time and again as required. In addition, the dividers and rods prevent the plates and pots from falling over or hitting each other.

Material for liners: solid-core laminate (ten functional grooves)
stainless steel (five functional grooves)
Material for vertical dividers: oak | walnut
Material for rods: oak | walnut | anthracite-colored synthetic material
Size (W x D x H) of liners, solid-core laminate: 33/47.4 x 48.8 cm
Size (W x D x H) of liners, stainless steel: 47.4 x 48.8 cm

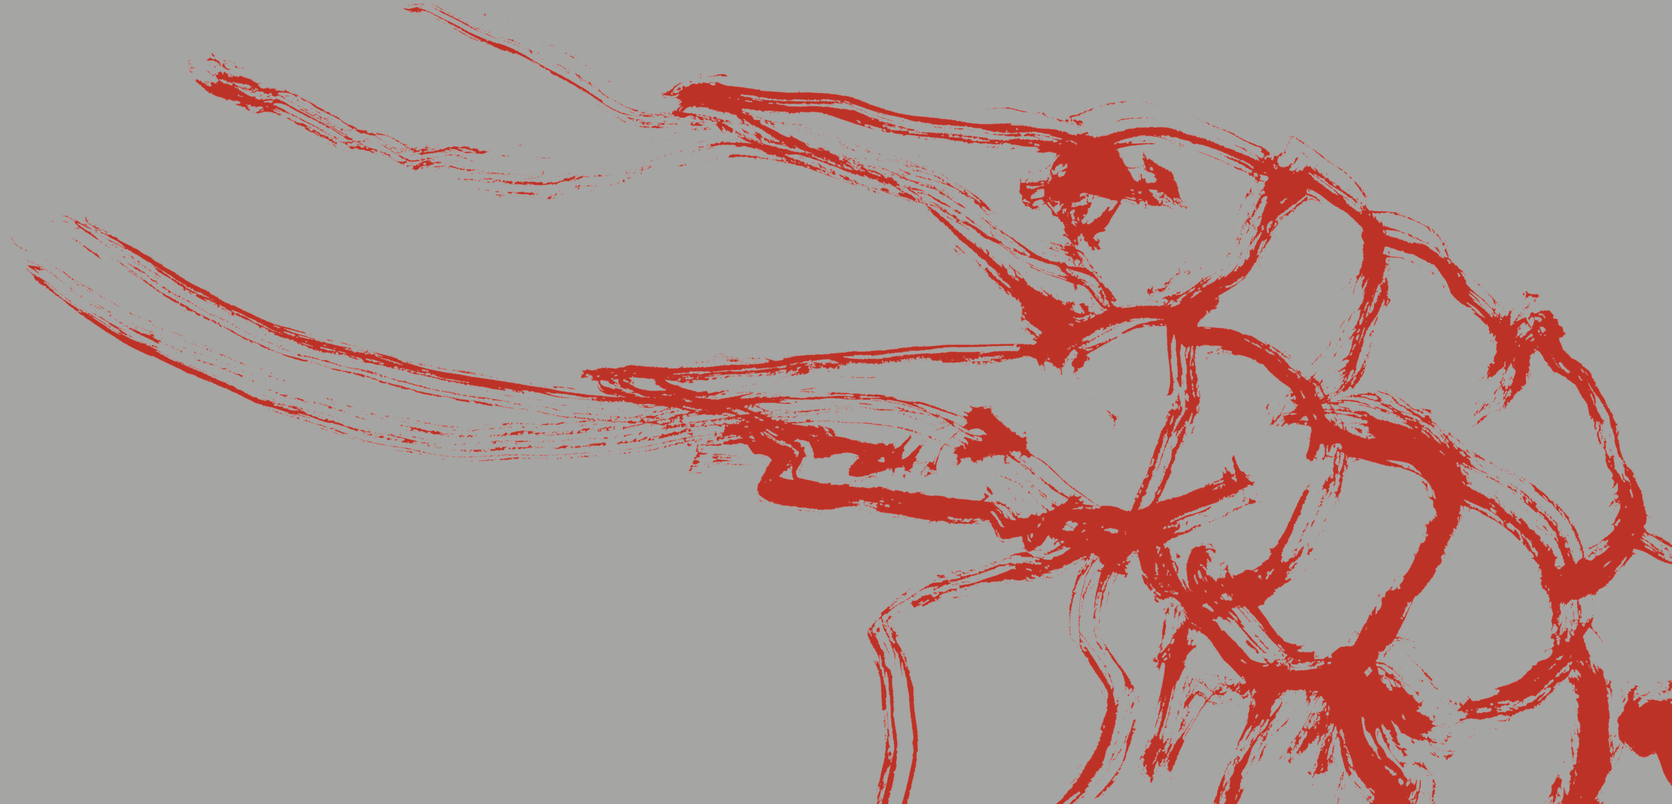

Round or angular? A feast for the senses. With their stand-out look, bulthaup's stylish **jars for seasonings and spices** are as attractive as they are practical. They can be inserted in the prisms in rows, and are always to hand – whether they are lying in the drawer, or standing on the table or countertop.

Material: glass
Size (W x D x H): 7,5 x 5 x 9,5 cm, volume: approx. 120 ml
11,3 x 5 x 9,5 cm, volume: approx. 207 ml

"With cooking, the greatest art lies
in harmoniously combining precision
and improvisation."

Enrico Cerea
Executive Chef, Ristorante Da Vittorio

Masterpieces are creations of the inspired.

bulthaup b3

Whether a symphony or a chamber orchestra, this is your stage.

How would you sum up bulthaup b3 in three words? Exceptional design freedom. The system sets new standards with its diverse and ingenious solutions and its minimalist design.

The bulthaup b3 range is packed with contrasts: from big, solid pieces to slender, elegant items, and from floating elements to floor-standing monoblocks and islands. Surfaces come in stainless steel, aluminum, laminate, lacquer and fine wood, to achieve the specific look you desire. And in addition to innovative materials, bulthaup b3 boasts striking features such as a seamless fit and finish, a multi-function wall, monoblock and versatile function boxes.

The bulthaup b3 concept offers a multitude of stylistic and design options – ensuring each kitchen is truly one of a kind. Each one is as unique and distinctive as its owner.

It's the personal touches that make a kitchen special.

The diversity of the bulthaup b3 range sets the tone for the kitchen as a whole. And the bulthaup b3 interior elements shape the space within the units.

They are key parts of the comprehensive bulthaup b3 system. The interior elements structure the pull-outs, and unite aesthetics with practicality, whether they are placed outside or inside the units.

The intelligent components deliver maximum flexibility – they can be placed in multiple positions, for a fluid kitchen design. The result is a living space that can be redefined over and over again, in line with your ideas, needs and ways of working: a kitchen that rejects the static and embraces the creative.

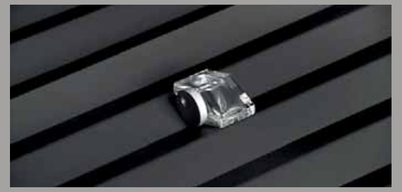

"Quality is about aesthetic and sensual appeal, put into practice with technical perfection."

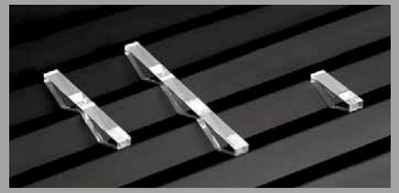

Gerd Bulthaup
